**Subject:** RE: Arkwood - analytical data - schedule

Stephen,

Please see attached letter updating the status of the analytical data for Arkwood and our report submission schedule. The dioxin reassessment report and supplemental dye tracing report will be submitted on or before March 31. I am also providing an update on the schedule to Bud Grisham.

Thanks, Jean

Stephen,

Thanks for forwarding the results. We are looking into setting up an FTP site and will let you know when it is available.

Thanks, Jean

Hi Jean,

We have the validation summary (attached), but are still waiting for the raw instrumentation data from the lab. When that part comes in, I'll share the complete package with all.

Is there a way to host an FTP site on your end? I'm anticipating possible large files as we share each other's validated data packages between McKesson-EPA-ADEQ.

Thanks,

Stephen L. Tzhone

Stephen,

For the dye tracing, I spoke with Tom Aley last week and the results are as expected: the only location in which dye was detected was New Cricket Spring and detections were within the expected recoveries. He is preparing a report of the findings.

For the soil sampling, we are waiting on two more analyses. Some of the raw numbers exceed the 730ppt level in certain units; however, this does not take into account the accessibility and percentage of coarse material, i.e. a significant portion of the ditches have no soil and almost all of the samples collected had a significant percentage of coarse material which alters the exposure risk. Do you have the analytical data from the samples that EA Engineering collected? If yes, we can incorporate these results into our report.

We are still on schedule to submit both reports by the end of the month.  
Jean

Hi Jean,

Any updates on the data (soil & dye tracing)?

Thanks,

Stephen L. Tzhone

Stephen and Mark,

Please see attached letter regarding the schedule for the analytical data for the Arkwood site. Please contact me if you have any questions.

I hope that you both have wonderful New Year celebrations!

Jean
